Tricom Fruit Products (Tricom Fruits), a fast emerging company engaged in multi-fruit processing, has successfully completed processing of approximately 16,000 tonnes of fruits since inception.

For the year 2012, Tricom Fruit Products has envisaged exploring the domestic markets which it intends to conquer with a new product line in terms of fruit and vegetable purees and pulps. The company is also focusing on enhancing efficiency of existing processing lines by adopting energy efficient designs and better process controls.

The company shall shortly be doubling the processing capacity from current 10 tonnes per hour to 20 tonnes per hour for mango and pomegranate and from 5 tonnes per hour to 10 tonnes per hour for guava, papaya, tomato and gooseberry (amla).

Tricom Fruit Products is engaged in the processing of wide range of fruits encompassing Mango, Pomegranate, Guava, Papaya, Tomato and Gooseberry (amla). Supplied in the form of pulp, puree, juice, concentrate they are exclusively customized and processed as aseptic or, frozen based on the customer's requirement.
